A block of rooms will be held.

State that your reservation is for the Nebraska Locksmiths Assn. to get our group rate.

Master Key System Decoding & Expansion

Class Description: We have had several classes on How to Master Key a system but as far as I know we have had NO class on how to decode and expand a system for our customer if no Paperwork is available. This class (I hope) is to shed some light on this lucrative side of our business. Namely: 1. How to determine either the Master key or the change key in a given lock. 2. How to Figure out the possibilities for expansion and if it is feasible to expand. 3. How to find a Change key if Master is known or reverse-engineer to get the Master from a Change key. 4. How to determine what Kind of system is used, Rotating constant, Progressive, Mogul Locks, List system, Page system, Manual system or Napkin system. 5. This will be a hands-on class so PLEASE BRING THESE TOOLS: { Tweezers, Follower (.500 hollow preferred), Caliper or Micrometer, poke tool, knurled nut wrench, work mat, small screwdrivers for Mortise locks, a few Picks just in case}, any other tools you normally use to pin cylinders with. A small pinning tray will be provided to help keep things sorted out. We will discuss other keyways but will be using the Standard SC1 for class, If you have a cylinder that you have questions on Please bring it ... Someone may even know the answer. THIS IS NOT AN ACE CLASS. Cost of the Class \$40.00

Instructor: Eugene (Gene) Hansen, CAL CRL, Hansen's Locksmithing out of Alliance, Nebraska. Most of you know me as being a member in the NLA (Nebraska Locksmith Association) and ALOA, also a Member of ALA (Alabama Locksmiths Association) I have been in business for 30 years as of the time of the class, I have taught a few classes in the NLA (Storefront Lock Installations, Automotive Steering Wheels, Small format I/C Core, The Lock Collection and written a few articles for publication in The National Locksmith, Locksmith Ledger and Keynotes, also have a few posted in our website. I am fond of HANDS ON and letting the Students help teach each other. Helpers (I have asked Scott Hansen and Bruce Nemecek to help with the class so it can move along faster). If you have a system you are confused with please bring it with you, if time allows we can see if we can answer your questions.

The fee for this class is \$40.00
Class size is limited to 25 students

Reservations: Grady Turner, NLA President 402-450-1849
