Saturday, July 21, 2018

8:00 AM—Business Meeting
9:00 AM—Class begins

SAFE DEPOSIT SERVICING

Mick McManis, CPL Instructor

This class is structured for the technician who seeks more experience and knowledge in the world of safe deposit locks. Each student will have the opportunity to disassemble 3 or more locks, identify their parts by name, and understand their structure in regard to how to open each by various methods with the proper tools.

This is definitely a hands on class, all tools and locks will be provided. If you have a problem lock, or any with questions, the instructor wishes that you will bring them to the class. This helps out everyone. Various other locks will be discussed as time allows.

Mick started his locksmith career in 1976 in Marysville, KS. He decided to specialize in safe deposit locks. With many years of collecting obsolete safe deposit locks moved to Topeka, Kansas in 1996 and formed the company, Safe Deposit Specialty, that specialized in helping others with their lock and part needs. Today he is well known through out the USA.

Mick McManis is also well known for everything he did for NLA. He was Vice-President 1988 - 1989 and President 1990 - 1991.

Class fee (NLA members) \$70, (Non-members) \$120
