PRESIDENT'S NOTES

Well folks, it's that time of the year again; the time where we welcome a new year and a new president. The class this time covers Closed Circuit taught by Charles Dixon. We're at the same location as we were last year, the hotel just off of 48th & O St. We're also having the Nebraska Tax class Friday evening about 7:00 P.M. I trust the rest of the details to your reading. I will be sending ALOA the class list for this class.

Please contact me as soon as you can to reserve your spot.

I once again wanted to thank everyone for the last two years of support for NLA and for myself as your president. Please help Charlie Ward settle in to this new office by supporting him the same way you supported me. The honor has been mine to serve as a president.

Thank you,

Ryan Andersen, CRL

Class Description

E005 CCTV for Locksmiths

This class covers a range of CCTV equipment and installation techniques including types Of cameras, types of lenses, calculating light requirements, uses for each, mounts and Housings, wire and cable, connectors, monitors, Digital Video Recorders (DVR) and System design.

Upon completion of the class students will have a basic understanding of how a CCTV system functions, what products to select, how to strip wires, attach connectors, install cameras on mounts, hook cameras to a monitor and a DVR.

This field is no different then any other part of locksmithing and by getting the knowledge from this class, everyone will find it pretty easy to understand. The state of Nebraska does not have a low voltage license law so this makes it where all of you can get involved.

Make your room reservation at the New Victorian Inn Suites by January 11 as after that the block of rooms saved for us will be released.

Maximum seating in class is 30 students. Call Ryan Andersen and confirm your seat. Make checks Payable to NLA & send to : Ryan Andersen , 6921 Dudley St., Lincoln, NE 68505 or call 402-499-3195 and inform me how many are coming. My email is randers75@yahoo.com
