## **NLA VOTES IN FAVOR TO HAVE TESTING AFTER CLASSES VOTE WAS TAKEN TO DISCONTINUE WITH MINK**

The Nebraska Locksmith Association voted on January 20, 2007 to have testing after each of the classes. This testing is for the ALOA members that wish to continue on with their certification to continue to better themselves. You must be a ALOA member to be able to take the test. The testing is offered at classes if it is requested and the fee is \$15.00 per person that wishes to take the test. This does not affect any of the other students or the prices of the classes.

Elmer Howard contacted David Lowell whom is in charge of the education for ALOA. Speaking with him we are all set up for testing at all classes including the one for October 18, 2008. Advanced notice to the President is nice but not mandatory.

David Lowell advised us that on some of the classes where we have more then one subject being taught, that there will be some questions on the test that was not covered in the class. This is not a problem as for the small fee if anyone did fail it, they would be aware of the questions for the next time that they can find a place to take the test again. The procedure that we are using here (all ACE classes with testing ) is not normal, as to find anywhere that you can take this testing is very difficult. This is why we are attracting other states where people are so willing to travel.

By booking all the ACE Classes with ALOA we already are seeing its results. All of our classes are advertised in the Keynotes Magazine and are receiving calls to come to our classes from other states. Gene Hansen is also getting contacted from it being on the website.

## **Why choose ACE ALOA Classes?**

Ace ALOA classes are some of the finest classes that can be held. Any one that was a President knows that a instructor can cancel on you at the last minute. We have all had that happen to us. ALOA will send a replacement for the instructor if for any reason the one assigned can not make it. We are guaranteed our classes and dates that way. ALOA will make a section in the KEYNOTES Magazine telling all that we are holding these classes. This will help our membership grow.

# **NEBRASKA LOCKSMITH ASSOCIATION**

## **MINUTES JANUARY 20, 2007**

President, Elmer Howard called the meeting to order at 8:04 A.M. January 20, 2007. Past Secretary, Richard Taedter read the minutes for the October meeting. Gene Hansen made a motion to accept the minutes as read, Chuck Smallcomb seconded the motion. The Treasurer's report was read by Treasurer Tony Delgado. Chuck Smallcomb made a motion to accept the report as read, Gene Hansen seconded the motion.

Under Old Business , Pres., Elmer informed everyone the class list is locked in until 2009. George Huffaker, John Lister, and Josh Seybert all had their second readings for new membership. All were voted in as new members, congratulations.

Gene Hansen revised the coversheet for the applications, and passed around a sign up sheet for help on filling out applications. He also reported about the website and some of the changes made to it.

In New Business, the Secretary of State needed \$20.00 for an incorporation fee. It was paid by Jim Hoffman. Also in New business, was the discussion of MINK. Richard Taedter made a motion not to have MINK for the next couple of years. It was seconded by John Firestine. An amendment was made to have our part of MINK dissolved.

The Ace ALOA classes were discussed for the PRP testing. Eight of the ten members present voted in favor of having the PRP testing after every class. PRP will be offered after the available classes. Swap meet was discussed for the July 14 meeting in Norfolk, NE. Gene Hansen made a motion to close the meeting and John Firestine seconded.

Ryan Anderson, Secretary

## **NEBRASKA CHAPTER OF ALOA**

### **Minutes January 20, 2007**

ALOA meeting was called to order at 9:00 A.M. at the Quality Suites Inn, in Lincoln, Nebraska By president Elmer Howard. Minutes of the last meeting were read and approved.

Treasurer's report was given by Charles Smallcomb, beginning balance of \$1860.93. Deposits of \$293.00, less \$563.68 for checks written, leaves a balance of \$1604.32. Motion was made to accept motion carried. We have a total of 17 members.

A discussion was held on the secretary for ALOA and it was decided to accept a volunteer for the position. John Firestine was accepted to fill the position.

Ryan Anderson is the new treasurer for ALOA . A motion to make Jim Hoffman a Life member of Nebraska Chapter of ALOA. Motion carried.

John Firestine said he would donate funds to cover 3 people for classes. Elmer Howard said that he would be happy to help John decide who would receive them.

Motion was made to adjourn at 9:30 A.M. Motion Carried.

Dale Voigt  
Secretary

## SAFETY THINGS TO KNOW ABOUT DRIVING

A 36 year old lady from Kilgore, Texas was traveling between Gladewater & Kilgore. It was raining but not hard, when her car suddenly began to hydroplane and literally flew through the air, totaling out her car. She was not seriously injured but very stunned at the sudden occurrence.

When she explained to the highway patrolman what had happened he told her something that every driver should know.

**“ NEVER DRIVE IN THE RAIN WITH YOUR CRUISE CONTROL ON.”**

She had thought she was being cautious by setting the cruise control and maintaining a safe consistent speed in the rain.

But the highway patrolman told her that if the cruise control is on and your car begins to hydroplane, when your tires lose contact with the pavement your car will accelerate to a higher rate of speed and you will take off like a airplane. She told the patrolman that was exactly what had happened. The patrolman told her that a warning should be listed on the drivers seat sun visor stating that never use the cruse control on wet or icy pavement.

Thanks to Richard Taedter, Sr for this information

# FRIDAY NIGHT EVENING MEETING TOGETHER GEORGE HUFFAKER'S SUPER MAGICAL SHOW

**George Huffaker's Ye Olde Time Magic Show. What a show it was. His performance was to a full house. Young and old, everyone really enjoyed it.**

**The show was a non stop keeping everyone on the edge of their seats. Above he showed using several large rings with no openings where he would entangle them together.**

**John Firestine is shown above with George Huffaker. John got first hand at how to do the tricks. Ask him and he will show you. John says that it is all in the hat.**

**Norma Hoffman and Mitchell Voigt is shown here. Norma forgot her hat and purse so George was kind enough to make the items almost come out of thin air. Very colorful attire that you have there Norma.**

**As seen here, everyone really enjoyed the show. The magician kept the crowd in the edge of their seats with so many different tricks that no one knew what was coming next.**

**Bob Sieveking, an ALOA instructor, taught “Lock cyl. Reading & Impressioning”). Bob is a super instructor and we all appreciated him coming to teach for us. We had a full classroom and that is what it takes to bring in the best. Keep supporting NLA by being there.**

**The day was packed with continuous information that everyone will be using when they get back. Bob Sieveking used the overhead projector most of the day showing how to read different kinds of wafers, if they were cam locks or automobile locks, or anything that one is trying to impression.**

**Dale Voigt is shown here showing Steve Oberg some fine points on lockwork. This is very common to see as we have many in the class that is very willing to help out anyone that wants it.**

**No this is not part of the class project. Ryan Anderson is not picking a lock in the upside down vice. John Firestine is observing the process that Ryan is doing. I think Ryan was overhauling the vice.**

**Charles Ward is checking out a cyl. Using a magnify head set. Is that a flashlight hanging off the front of the bill of that headset? Jerry Caldwell and Jim Reiter have the best seats in the house. Front row center.**

**Some times moving in real close was the only answer as for some of the fine detail work, it was something that no one wanted to miss. Tony Delgado is using a different kind of Magnifying tool while Lee Moyer left observes.**

**Jon Lyster receiving information from Mark Voigt ( not being able to be seen) while George Huffaker talks to Jerry Schroeder. When you come to these classes everyone has things to share with others.**

# Nebraska ALOA Video Library

Videos are available at classes by contacting President Elmer Howard and will be sent to members free of charge. Video's are due to be returned 20 days from date of getting them.

Picture from HL Flake Company spring flyer

Harry is a Certified Master Locksmith, a Certified Professional Safe Technician and an Ace Certified Instructor. He has been a locksmith since the 1950's . He is an active member of ALOA, SAVTA, IAIL and numerous local associations. Harry has been instructing Federal Officers since 1967. Most recently he was responsible for building a training facility for Federal Officers for the National Security Administration. He has taught classes for many local and regional locksmith associations as well as ALOA.

This class will cover taking apart the Unican 1000 lock and finding lost combination, servicing if any is necessary, and will cover how to manipulate the locks. This is the one lock that was made with a exceptional field track record. Many of these locks will work for 5 to 15 years. They are not affected by extreme cold or hot weather. They are not hard to install. A very heavy duty built lock.

Students will receive ACE Certificates of Training and AEU's. Each student will receive a class manual.

Students who are ALOA members may take the PRP elective for the class and this PRP will be the L20 test. The fee will be \$15.00 for anyone wishing to take the test.

**BECAUSE OF FOOD ORDERED AND EXTRAS I MUST HAVE A COUNT OF PEOPLE FOR THE CLASS.**
